## How do I register my Smart Card?

---

Before you can use HSBCnet, the system requires that you register your new Smart Card. To register Smart Cards, you will need:

- Gemplus software and card reader installed on your computer (software CD and reader are shipped with the Smart Card)
- Smart Card PIN (sent separately to you by mail/courier). If you did not receive your PIN, contact your System Administrator

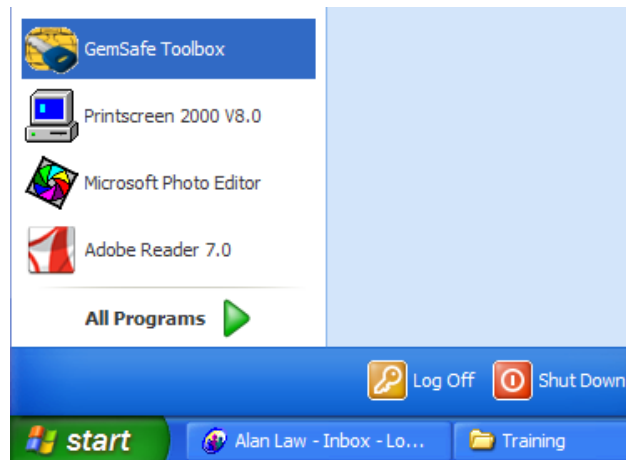

To register your Smart Card on your computer:

### *Step 1*

Insert your Smart Card into the reader.

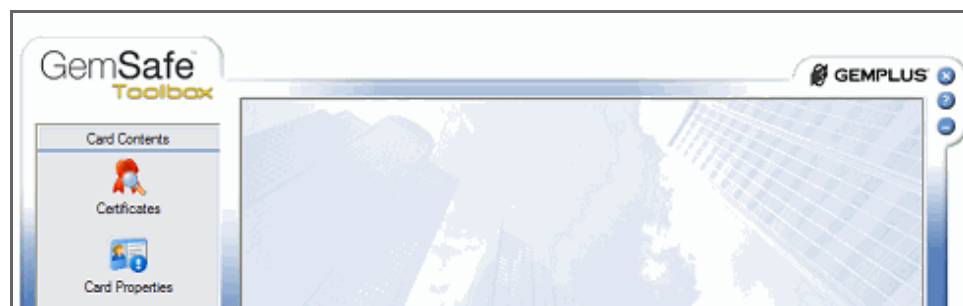

### *Step 2*

Open Gemplus, GemSafe Toolbox in your start or programs menu.

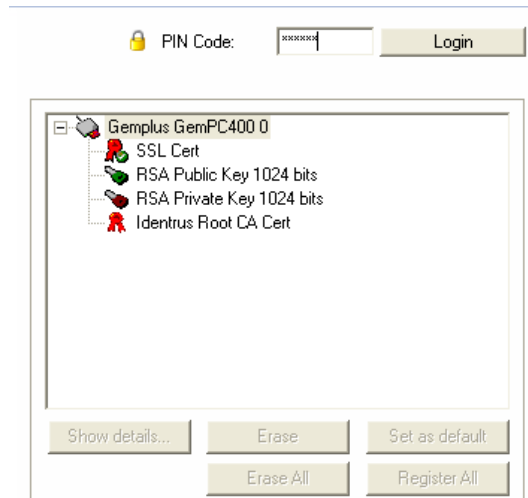

### *Step 3*

In GemSafe Toolbox, under Card Contents, click **Certificates**.

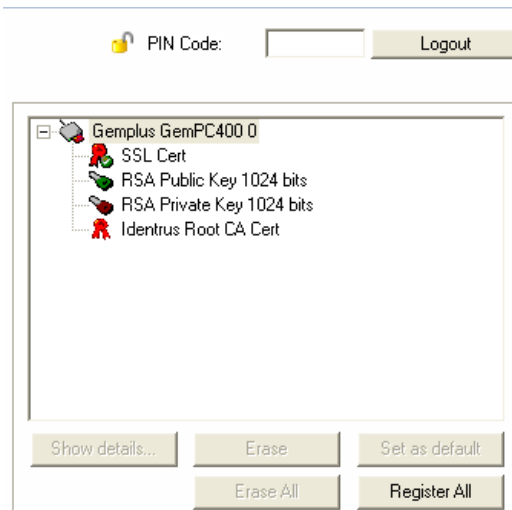

### *Step 4*

In the GemSafe log on screen, enter the PIN that was mailed to you and click **Login**.

## Step 5

When your PIN is accepted, click **Register All**.

An acknowledgement confirms your action.
