The screenshot shows a web application interface for managing user access control. At the top, there's a navigation bar with links like 'File', 'Edit', 'View', 'Favorites', 'Tools', and 'Help'. Below that is a toolbar with icons for 'Favorites', 'Shared Documents', 'My Solution Centre', and other system functions. The main content area has tabs for 'Summary' and 'Details', with 'Details' currently selected. A red header bar indicates the current page is 'Tool Summary'. The 'User Information' section contains fields for User name (USFTTD01SA3), Last Name (USFTTD01SA3), First name (USFTTD01SA3), Company name (HSBC), Location of business (INDIA), and User status (Active). The 'Tool Summary' section is a table comparing entitlements 'Before' and 'After' changes. It lists various tools under categories like 'Administrative User Entitlements', 'Balances and Transaction Reporting', 'Customer Alerting', 'Payment', and 'Self Service Tools'. Most tools show no change (checkboxes checked both before and after). The 'Payment' category shows changes for Advising Maintenance, Payment Authorisation Summary, Payment Instruction Creation, and Payment Instruction Summary. The 'Self Service Tools' category shows changes for Service Authorisation, Service Request Creation, and Service Requests. At the bottom of the form are 'Submit' and 'Back' buttons, and a JavaScript function call 'javascript:P_7563saveEntts();'. The status bar at the bottom right shows 'Trusted sites | Protected Mode: Off' and a zoom level of '100%'.
